ATLANTIC WASTE AND POWER AND IN SUN WE TRUST REACH AGREEMENT

Will install grid scale solar power in Nigeria

New York, NY, August 19, 2015— New York City, NY August 6, 2015 Atlantic Waste and Power System, Inc and In Sun We Trust, France announce a historic partnership. In a meeting in New York City, NY, the President of Atlantic Waste & Power System, Inc. and the Regional Manager West Africa In Sun We Trust, Arnaud Baehr, reached an agreement to partner in mini Grid and utility scale solar projects in Nigeria. The partnership will give Atlantic Waste and Power a competitive edge in the large scale solar power market. In Sun We Trust has over 10 years' experience and has over 20 MW in development in France. Atlantic Waste & Power, Inc. through its subsidiary in Nigeria (AWPS Renewable Energy, Ltd) has installed over 23 residential and business customer solar power solutions in Ghana and Nigeria. Mr. Arnaud Baehr expressed excitement at the opportunity that is presented to ISWT to participate in one of the worlds most dynamic market. Mr. Christopher Onwuasoanya believes that the experience that ISWT has in the French market can be of tremendous benefit to our clients and to Nigeria as a whole.

"We can now compete for large scale solar installations" Mr Onwuasoanya

Established in 2013 Atlantic Waste and Power specializes in Renewable energy and waste management. Through its subsidiary AWPS Renewables LTD, they have installed over 23 systems for business and residential customers in Nigeria and Ghana. Our customers on average save over 80% on fuel costs when they go solar.
